National Respiratory Audit
Programme (NRAP)

Do you have asthma or chronic obstructive pulmonary disease (COPD)?

We will collect information about all people at this practice with asthma or COPD at quarterly intervals. Strict rules are in place to make sure your information remains safe and secure.

This project is called the **National Respiratory Audit Programme (NRAP)**.

This GP practice is involved in a national project to help to improve the care of patients with asthma and COPD.

This information will be used to help improve asthma and COPD care for patients.

For more information about the audit and how your information is used, please ask a member of staff for a patient information leaflet.

National Respiratory Audit
Programme (NRAP)

Do you have asthma or chronic obstructive pulmonary disease (COPD)?

Every 3 months, we'll be collecting data about individuals in our practice who have asthma or COPD. Strict rules are in place to make sure your information remains safe and secure.

This project is called the National Respiratory Audit Programme (NRAP).

The information gathered will play a key role in improving the quality of care for asthma and COPD patients.

If you'd like to learn more about the audit and how your information contributes, please feel free to ask any of our staff members for a patient information leaflet. Your wellbeing is our priority, and we're here to provide you with the best possible care.

We're excited to share that our GP practice is participating in a national project dedicated to improving the care provided to patients with asthma and COPD.
