

REACT
RAPID ELDERLY CARE
ASSESSMENT TEAM

Improving the quality OF YOUR CARE

REACT is made up of staff who have specialist skills and knowledge in the care of older people who will provide a quick thorough assessment which will assess your medical, physical, psychological and social needs.

REACT

RAPID ELDERLY CARE
ASSESSMENT TEAM

Assessing your needs FOR THE FUTURE

REACT aims to help with your timely discharge from hospital and co-ordinate your ongoing care where appropriate with community services and other professional agents such as Social Services and Age UK.

One vision
WORKING AS A TEAM

REACT have access to community therapists, social workers, mental health services and many other agencies who work together to improve the quality of your care.

Care and reassurance FOR THE ELDERLY

On the Acute Assessment Unit at Pinderfields Hospital, all those over the age of 80, should expect to see a senior doctor who has had completed specialist training in looking after older people. The specialist doctor may decide that it is appropriate for REACT to co-ordinate and supervise the management of your care.
